

# NESTING CHANNEL

SEE OVER FOR SPECIFICATIONS

Textor Nesting Channels are designed to nest with the popular Textor C Purlins, and most other Purlins on the market, to allow a range of structural joints to be readily formed. Nesting Channels are ideal for structural, construction and fabrication applications. Textor Nesting Channels are available in a wide range of sections and galvanised finishes. Customisations are available upon request.

#### Features:

- Superior Strength
- Corrosion resistant
- Operational excellence

#### Finishes:

- Galvanised Steel

#### Customisations:

- Cut to length
- Grade and gauge
- Coating thickness on galvanised finish
- Custom roll form and modified profiles
- Punching

#### Availability:

- Standard sizes on site ready for dispatch
- Customisations with minimum delay

#### Support Material Available:

- CAD Drawings
- Textor Product Specifications Brochure

#### Example Applications:

- Construction (widely used in building and construction)
- Roofing (fascia end cap for purlins, light weight roof trusses, roof suspension)
- Walls (wall beams, framing)
